The following is an examiner's statement of reasons for allowance: The declarations remove the rejections based on Ishii.

The reference suggesting the use of polymerization inhibitors (Kagaya) is directed to unsaturated polyesters rather than unsaturated PPE. Secondly, Kagaya does clearly teach the benefits of including inhibitors or ratios of initiator to inhibitor. The combination of these factors make reliance on Kagaya to meet the claims untenable.

The examiner withdraws the provisional double patenting rejections in view of the fact the copending applications have not been allowed and these are the only remaining rejections (MPEP 822.01).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
